has successfully completed the online Specialization

Meta Full Stack Developer: Front-End & Back-End from Scratch

Congratulations on completing the Meta Full-Stack Development Specialization! You've mastered the skills needed across frontend and backend technologies. This certificate recognizes your hard work and dedication to developing valuable skills in today's tech industry. Please share it with your professional network. You've developed a skillset spanning the entire web development spectrum: mastering HTML, CSS, JavaScript and React on the frontend while building expertise in Python, databases, and Django for backend applications that integrate with your frontend work. Your completion of this program shows you can build complete web applications end-to-end, an important skill set for success in web development.

Taught by Meta Staff

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
